GREATEST STRIKE IN HISTORY IS PREDICTED BY MINERS' PRESIDENT

CONFERENCE DEADLOCKED

Miner Workers and Operators Unable to Reach an Agreement.

BOTH PRESENT ULTIMATUMS

Owners Insist Upon Present Scale While Mitchell's Men as Firmly Demand an Increase—Call Issued for the Reopening of the Miners' Convention.

MITCHELL'S FORECAST.

- 604,000 miners on strike.
- 450,000 union men.
- 150,000 nonunion men.
- DISTRIBUTED AS FOLLOWS
- 150,000 in the anthracite field.
- 85,000 bituminous, Pennsylvania.
- 38,000 in Ohio.
- 17,000 in Indiana.
- 60,000 in Illinois.
- 16,000 in Iowa.
- 30,000 in West Virginia.
- 3,000 in Michigan.
- 60,000 in other states.

Indianapolis, Feb. 3.—The final adjournment of the national convention of United Mine Workers, after the dissolution of the joint conference of miners and operators, was a dramatic event. When the voices of the miners mingled in the singing of "America" had hushed, an oppressive silence fell upon the assembled delegates, and as President John Mitchell slowly pronounced the words which adjourned the 17th annual convention without day, thus dissolving every possible hope of averting a gigantic industrial war without the intervention of some unexpected and powerful influence, the miners quietly marched out of the hall. During an interview President John Mitchell discussed some of the phases of the situation. In answer to a question he said: "Yes, it is true that never in the history of this country has a strike of such far-reaching effect been threatened. It means a national

suspension of mining. If the strike comes on at the expiration of our mining contracts March 31, and it includes the anthracite districts."

Almost the entire session of the miners' convention was taken up by a discussion of the action of President Patrick Dolan, of district five, in casting the vote of the Pittsburgh district in favor of accepting the proposal of the operators of the central competitive district which was submitted to the miners on the floor of the joint conference. Resolutions looking to the dismissal from membership of President Dolan were offered, but no action was taken.

The apparent determination of both operators and miners indicates that neither will make overtures to the other for further negotiations and as indicated by the speeches of both the radicals and conservatives of both organizations on the floor of the joint conference, unless some influence, which is not now foreseen, steps into the breach, 550,000 men controlled by the United Mine Workers will walk out of the mines in every section of the country on April 1st.

According to the figures given out by the national officers of the miners'

STATISTICS OF MINERS' STRIKE TO DATE.

Strike to begin April 1.
Number of men affected, 550,000.
Territory affected, United States and Canada.
Cause of strike, refusal of operators to grant increase of wages and refusal of miners to agree to the repeal of the shot-firers act.

"I have said that the responsibility of bringing on such a strike was a grave responsibility for any people. We have been slow to assume any such responsibility, and the responsibility rests, as any one can see, on the operators.

"The prosperous condition of the country warrants an increase for the miners. We accepted a decrease by our own votes two years ago, when at the time we were convinced that the conditions of the country demanded it. We have ever been ready to stand right, and we stand right now."—President John Mitchell in a statement at Indianapolis yesterday.

organization, they expect the strike to bring out over six hundred thousand men—about 150,000 non-union miners in West Virginia and Pennsylvania, with the 450,000 union miners. Of this number, about 150,000 will be out in the anthracite districts, 35,000 in the Pennsylvania bituminous districts, 38,000 in Ohio, 17,000 in Indiana, 60,000 in Illinois, 16,000 in Iowa, 30,000 in West Virginia, 3,000 in Michigan and approximately 60,000 in Kansas, Missouri, Texas, Indian Territory and Arkansas. The states enumerated will be the scene of the greatest part of the battle.

THE RATE SITUATION

- Hepburn bill under debate in the house.
- Senate Committee to report a rate bill February 16.
- The President will accept no compromise.
- The Senate Committee divided on the measure.
- Inspired denial of Roosevelt's ultimatum.
- Rumors of an agreement to amend.
- Party leaders warn the Administration of danger ahead.

Columbus, O., Feb. 3.—The senate passed the following bills: Amended H. B. Mr. Lersch, to grant to municipalities the right to require street railway companies to sprinkle their right of way within such municipality; H. B. Mr. Reynolds of Cuyahoga, to amend section 1 of an act entitled, "An act requiring persons, associations and corporations owning or operating street cars to provide for the well-being of employees," passed April 20, 1893; S. B. Mr. Hynes, to amend Sections 633-15, 633-16 and 633-17 of the revised statutes of Ohio, relating to appointment and duties of boards of county visitors; S. B. Mr. Mather, to amend Sections 65, 66 and 67 of the municipal code, relating to sprinkling and cleaning of streets and planting of shade trees; S. B. Mr. Mather, to amend Section 5543 of the revised statutes, relating to jurisdiction of courts of common pleas and superior courts.

The senate will pass the two-cent fare bill of Representative Freiner. Senator Rathbun, author of the two-cent bill that passed the senate, says: "I don't care a rap whether my name is on the bill or not. What I want is

GRAFT HUNT MAY BE FARCE

SENATE PARTISANS CLASH OVER THE APPOINTMENT OF THE INVESTIGATING COMMITTEE.

Columbus, Feb. 3.—Republicans and Democrats in the senate are in battle array over the Cincinnati Lexow committee, and on political lines.

Senator Mather of Akron, served notice Thursday night on the senate committee on municipal corporations that unless Lieut. Gov. Harris were permitted, without interference, to name four senators on the committee, the Republican side of the senate would be bitterly opposed to the resolution.

Senator Espy of Cincinnati, replied: "The Republican speaker of the house will name four members of the committee. If the Republican presiding officer of the senate names the other four the proposed investigation would be the laughing stock of the state.

"What would the people of Ohio think of a bi-partisan committee appointed to investigate the rule of George B. Cox by two officials he was largely instrumental in nominating?"

WAVE

FROM THE ARCTIC SWEEP SOUTHWARD, REACHING AS FAR AS SAVANNAH, GA.—WILL SOON BE OVER.

Washington, Feb. 3.—The Weather Bureau reports today that a cold wave extends over the eastern portion of the United States, the lake region and various portions of the West, with extremely low temperatures in many places. The cold wave came from the extreme Northwest. The mercury has fallen considerably as far South as Savannah, where the record so far is 42 degrees, with a possibility of freezing by morning. In Northern New York unofficial records show as low as 20 degrees below zero at various points. The temperature today was 30 degrees below at Rockville, Ontario; 24 degrees below at Sault Ste. Marie, Mich.; 10 below at Duluth, Des Moines and Keokuk and 16 degrees below at Moorhead, Minn. The Weather Bureau officials say that this was the first real cold spell this winter in the eastern section of the country. In Washington the temperature fell to 17 degrees above this morning and tonight was the same with prospects of a greater fall before daybreak. The cold wave will not be of long duration.

Six Bitten by Mad Dog.

Battle Creek, Mich., Feb. 3.—Bitten by a dog several days ago since pronounced mad, Carl Sage, George Talbot, George Allen, Charles Mendenhall, Guy Simmons and James Matthews were taken in charge by the health authorities and peremptorily ordered from their workshops and hurried to Ann Arbor to receive Pasteur treatment at the university hospital. Grave fears are entertained in some of the cases owing to obstinate character of the wounds.

Cashier Indicted.

Milwaukee, Feb. 3.—The federal grand jury returned an indictment containing several counts against Henry G. Goll, former assistant cashier of the First National bank. It was not disclosed upon what grounds an additional indictment to those returned last year had been returned, but it is known that Goll's affairs in connection with the bank have been thoroughly probed.

NEW ORGANIZATION.

Bucyrus, Ohio, Feb. 3.—The American Clay Machinery Company, of this city, has been taken over by the new company under the same name. The old company was organized under the laws of New Jersey and was operating the plants in Bucyrus and Willoughby for the benefit of creditors of the company. The new organization is incorporated under the Ohio laws. It is headed by R. C. Penfield, owner of the plants before they became involved in financial difficulties. Mr. Penfield has been elected President and General Manager. Mr. H. Wilson, Treasurer, and W. W. Reehl and L. W. Penfield, managers of the plants at Bucyrus and Willoughby respectively.

Under the Wheels.

Chillicothe, O., Feb. 3.—The eight-year-old son of Thomas Ford was instantly killed near Bainbridge, O., by a freight train which he and some companions tried to board at a crossing. His head and both arms were cut off.

Alleged Lynchers Arrested.

Harwell, S. C., Feb. 3.—W. J. Myrick, Wade Sanders, C. W. Hogg and Tom Huggins, all prominent farmers of this county, Postmaster Joseph Halford of Ulmer, and Constables W. J. Harter and Milledge Lee were lodged in jail here charged with having assisted in the lynching of Frank Deloach, colored, and John Deloach, colored, father and son, at Ulmer December 22. The younger negro was accused of having killed Haynes Cridock, a prominent farmer of this section, having done so at the command of his father.

Reach an Agreement.

Washington, Feb. 3.—Railroad rate legislation will be voted upon by the senate committee on interstate commerce on February 16. An agreement to take final action at that time on all the measures pending before the committee has been reached. The differences of the opposing factions have narrowed down to the court features of the bills, but these present a variance admitted to be fatal to a harmonious committee report.

Philadelphia Postmaster.

Washington, D. C., Feb. 3.—The question of the selection of a postmaster at Philadelphia to succeed Colonel Clayton McMichael, was disposed of by the appointment of Richard L. Ashurst. Mr. Ashurst had the backing of practically the entire Pennsylvania delegation in congress.

Scores a Knock Out.

Baltimore, Feb. 3.—Kid Sullivan of Washington knocked out Kid Parker of Chicago in the second round of what was scheduled as a 15 round fight before the Eureka athletic club. Parker made a good fight while it lasted, but succumbed to a whirlwind of body blows.

SIX

Millions are Not Accounted For

AND SOME ONE IN NAVY DEPARTMENT MAY BE CALLED ON FOR AN EXPLANATION.

Washington, Feb. 3.—Chairman Foss, of the House Committee on Naval Affairs, is engaged in a quiet hunt to ascertain what has become of about \$6,000,000 that has mysteriously disappeared from the accounting books of the Navy Department. It is not charged that the money has found its way into the pockets of grafters, but it is suspected that the department has ignored the laws of Congress and used the money for purposes other than those specified in the legislative acts.

The facts are these: The naval appropriation bill last year carried about \$8,000,000 for repairs of warships under the bureau of construction and repair. The same bill gave about \$4,000,000 for repairs for the boilers and engines of vessels, under the bureau of steam engineering. The book-keeping accounts of the department show that only about \$6,000,000 of this money was used for repairing the hulls, boilers and engines of vessels. The balance was not turned back into the Treasury, and the question is, What has become of it?

There is a well-developed suspicion in the minds of Chairman Foss and his associates on the naval commission that the missing \$6,000,000 was diverted by the department to permanent improvements in the various navy yards, such, for instance, as the construction of buildings, the purchase of tools and supplies and the expansion of the working plants. This is about the only way to account for the expenditure of so vast an amount. Chairman Foss has called on the department for an itemized statement of the manner in which the money was expended. If it should turn out that it was diverted to building up the navy yards and to other objects not contemplated by Congress, somebody will be soundly thumped for the violation of the law.

CITY SOLICITORS

Will Meet To Talk About How They Should Be Chosen.

Columbus, Ohio, Feb. 3.—The City Solicitors of Ohio will meet in this city next Wednesday to discuss the proposed amendments to the municipal code. Interest centers strongest in that having to do with the appointment of the Solicitor by the Mayor. In Cleveland, Toledo and Cincinnati the Solicitors are for the amendment as it now stands. City Solicitor of Columbus George S. Marshall is strongly opposed to the measure, and is for the election of the Solicitor by the people.

NOT TRYING TO DICTATE

RATE BILL

Representative Burton Participates in the Debate in the House.

Washington, Feb. 3.—Oratory on the railway rate bill held the attention of the house. The speeches of Burton of Ohio, McCall of Massachusetts and Russell of Texas, were features, while Thomas of North Carolina, Barks of South Dakota and Goulden of New York, took up particular and specific topics. Mr. Burton discussed the broad field of proper national ideas and growth of industry, of corporation development and traffic and traffic increase. Mr. McCall made an attack on the bill, opposing its fundamental features and making, as he knew, a vain effort to have the power to regulate railroad rates administered by the courts. Point after point he made to show what he contended were the weakness and evil of government rate making, illustrating by records of foreign countries. Mr. Russell argued for the measure. He spoke as a Democrat and gave that party credit for sustained effort and for careful scrutiny in the perfecting of the measure. Mr. Burke, a member of the committee in which the bill originated, explained its details. Mr. Thomas, who represents the strawberry belt of North Carolina, exulted in what he regarded as the relief in sight for his constituents, while Mr. Goulden praised the bill as the best yet produced on the subject.

AGREEMENT

Between the Hostile Factions of Chinatown in New York.

New York, Feb. 3.—The treaty of Chinatown, an agreement between the societies known as the On Leong Tong and the Hip Sing Tong, to insure peace and good will among the Chinese of Greater New York, was drawn up and formally agreed to before Justice Foster of the court of special sessions, who acted as arbitrator. If the warring factions live up to the terms of the agreement, it will mean the end of a reign of terror in Chinatown, in the darkened recesses of whose mysterious buildings murders and other crimes have been of almost weekly occurrence and where occasionally the never sleeping enemy of the feedists has flared out in pitched battles of the street. Gambling is to be eschewed, no deadly weapon is to be bought or accepted as a gift and every difference of opinion is to be taken to the Chinese consul for settlement.

PACKERS' TRIAL

National Company Admitted to Be a Holding Company Only.

Chicago, Feb. 3.—Arguments concerning the admissibility of evidence occupied the greater part of the session in the packers' case, and at the time of adjournment but two witnesses had been upon the stand. Just prior to the adjournment, District Attorney Morrison objected to any statement of Jessie P. Lyman, of Boston, former president of the National Packing company, relative to any conversation between Mr. Lyman and Commissioner Garfield. He claimed that Mr. Lyman was not a party to the trial, nor was the National Packing company, and that therefore his evidence as to a plea of immunity should be ruled out. Judge Humphrey finally permitted Mr. Lyman to relate the conversation. It did not differ materially from other conversations of the same kind that have been previously given. Under cross-examination by District Attorney Morrison, Mr. Lyman admitted that the National Packing company had never slaughtered an animal or made a sale. He declared that it was a holding company only.

Ryan Eclipsed.

Milwaukee, Wis., Feb. 3.—Jack Dougherty of Milwaukee was awarded the decision over Buddy Ryan of Chicago, by Referee Coffey in an eight round bout before the Milwaukee boxing club. Dougherty had a shade over Ryan in nearly every round. Dougherty used his left effectively throughout the bout and at no time did he appear to be in danger. The bout was easily Dougherty's on points. Both men were very clever in the line of footwork. Dougherty had a shade of the mixups. Steve Kinney of Milwaukee, won from Paddy Kee of Pittsburgh in six rounds.

President Has Made No Threats Regarding Rate Legislation.

CONGRESS HAS FREE HAND

Hepburn Measure, Now Before the House, Embodies the Views of the Chief Executive—Vigorous Fight Waged on the Philippine and Statehood Propositions.

Washington, Feb. 3.—By authority the statement is made that President Roosevelt is not attempting to dictate to congress what it shall do or not do regarding freight rate regulation, or any other question of legislation. Moreover, it is added that suggestions of a compromise of any sort on rate regulation which do not embody the substance of the president's message on the subject have not appealed to the president. What is known as the Hepburn bill, now under discussion by the house, embodies substantially the president's views as set forth in his annual message. Members of the senate committee on interstate commerce have assured the president that either the Hepburn bill or a measure resembling it in essential features will be reported to the senate. The report of the senate committee will not be unanimous, but it will represent the views of a majority of the members. It can be stated that while the president desires that such rate regulation shall be established as he has recommended, he is firm in his attitude that the railroads, as well as the shippers, shall be dealt with justly. He wants nothing in the law that would affect unfairly the rights or the property of the railroads. He is confident that legislation to be framed substantially on the lines of the Hepburn measure will prove fair alike to the railroads and to the people.

The president is interested deeply in both the Philippine tariff bill and the statehood measure. Concessions as to either one of them have not been given serious consideration. At the white house, it is understood that an effort is to be made in the senate, first to eliminate Arizona and New Mexico from consideration as a joint state; and if that should fail, secondly, to incorporate in the statehood bill a provision for the reference of the question of joint statehood to the voters of the two territories.

voted against the adoption of the resolutions, and 29 voted in the affirmative. The future policy of the states and territories represented in the convention was committed to a committee of 15 members. This committee will report to the next meeting of the national insurance commissioners at Washington in September.

In the resolutions adopted the system of life insurance, commonly known as the deferred dividend plan, was condemned and declared to be unjust in operation. An annual accounting of the surplus funds in the hands of insurance companies was endorsed and the convention declared for a plan for the government of mutual insurance companies, whereby each policyholder shall have a more direct voice in the management of the affairs of the company.

He will also send valuable advice and his book on "Neuropathy"—Curing through the nerves. Address, Dr. Franklin Miles, Dept. N, 719 to 729 Main street, Elkhart, Ind.

SITUATION IN WEST WORRIES OPERATOR

EASTERN OIL MEN HURRY TO MID-CONTINENT WHERE THEIR PROPERTY IS IN JEOPARDY.

Interesting Wildcat Test—Newest Completion in the Trenton Pool Not Strong, But Satisfactory to Producers.

Lima, Ohio, Feb. 3.—The situation in the mid-continent fields brought about by the recent promulgation of the Standard to curtail purchases of crude to a third of the product of any producer, has brought about a hasty packing of crudes by oil men throughout the Ohio and Indiana fields. It has been the men of Ohio and Indiana, which largely developed the now prolific fields of the twin territories and Kansas, and their oil might as well be water as far as realizing cash, and it takes cash in large sums to keep the drilling going to the west.

Latest Ohio Completions. The best paying wells drilled in the South Lima (O.) field recently have been in Mercer county, near the Indiana line, and especially have good wells resulted from the work of the drill in Union township. On the Ross farm, section 23, of this township, Cash & Mitchell have a new seventy-barrel well in their third venture and the rig up for No. 4. J. M. Yocum & Co. secured a sixty-barrel pumper in their fourth venture on the Sherer farm, section 24, and will drill the fifth well immediately. The Ohio Oil company has completed an initial venture of the Markley farm, section 23, which opens up a wide acreage. This well made sixty barrels the first twenty-four hours. The Ohio Southern Oil company, which has been one of the most successful in this field, has completed and shot their No. 1 on the Patterson farm, section 24, and the response shows a fifty-barrel pumper. On the M. Hamilton farm section 25, the Midget Oil company in its second venture, secured a twenty-barrel pumper. Two light wells are recorded in this territory in R. J. Straight's first test on the Coll farm, section 25, and the Hudson Oil company's sixth well on the Yocum lease, section 15. Both of these ventures made ten-barrel pumps. However, as this territory is all in the shallow sand, Union township is a bigger dividend paying investment than any other portion of the Ohio field during the late weeks.

New Deep Sand. Attracted by tests being made in Logan county, Ohio, near the Hardin county line, Indiana men, including two Muncie operators, whose names

could not be learned, are staking a well on the Wilgas farm, near the village of West Mansfield. So far a light pumper of heavy crude in a well drilled on the Smith farm, just east of the Wilgas, is the only indication of oil in that section. This venture went down 1,500 feet and made about five barrels of crude resembling the product of the Muncie deep sands.

CRIMP TO BE PUT IN TAIL OF TRACTION PROPOSITION.

DELPHOS ELECTRIC LIGHT AND POWER COMPANY READY TO RESENT INVASION.

A short time since it was announced that the Ft. Wayne, Van Wert & Lima Traction Company intended to ask the Council of the Village of Delphos for a franchise to furnish commercial lighting and power for motors for private consumers in Delphos, and that a petition was being liberally signed, asking Council to give the franchise.

The petition was liberally signed all right, and when the Delphos Electric Light & Power Company people got next to it, Manager H. L. Canfield got busy with a petition that was drawn up in the form of a statement to Council from the company's consumers, stating that they were well satisfied with the service given by the present lighting company, and that the rates were satisfactory.

Thus far the battle has been a bloodless one, but as the Council stated a few weeks ago, the animals have been stirred up and they are glaring at each other wickedly. Mr. Canfield has not been idle, and now comes forth with a statement to the writer that under the conditions they exist, the traction people have no authority or right to furnish current for commercial lighting or for power save for the propelling of their own cars. Mr. Canfield made a trip to Columbus, and after investigating the charter of the traction company, and conferring with the Auditor and Secretary of State, firmly states that the Council has no right to grant a franchise to the traction company such as they proposed to ask for.

He also states that they even have not the right to light up Second street, from their own power, a condition of their franchise. In event that the traction people did install lights on Second street, to take the place of those now in use, Mr. Canfield, under the terms of the franchise given the Delphos Electric Light & Power Company, would have to move the present arc lights from Second street to other points indicated by the Council, at his own expense. Mr. Canfield stated to the Journal Monday that the traction company must first have its charter before they can ask for a franchise, and that if they persist without that formality he will enjoin them, and also the Council.

He is ready to put a crimp in the all of the traction proposition, he says, and will not submit to invasion of his territory by the street railway company without a fight. Mr. Canfield says it is not his intention to stand in the way of public improvements, or to shut out competition, if others come in good faith and are willing to abide by regulations placed upon them, give concessions that were exacted of his company, and are prepared to act according to law, having a proper charter.

From appearances, there is music in the air, and the end is not yet. Mr. Canfield characterizes the proposition of the traction people as merely retaliation for his attempt to invade the Lima field and give light cheaper than the people of the county town are getting it. However, that is one man's opinion only. The traction people profess to be acting in good faith, and the situation will soon be up to the Council.—Delphos Journal.

CHICKEN THIEVES NEW LAW FIRM.

SENTENCED TO TERM OF FIVE YEARS IN THE PENITENTIARY.

Shannon and Wesley Mock, who were indicted for burglary at Ottawa, last Tuesday, pleaded guilty and have been sentenced to five years in the penitentiary. They are two of a gang of poultry thieves, who have been raiding in the western part of Putnam county, north of Ottoville. Another man who is thought to have been at the head of the gang, has not yet been apprehended. The particular offense with which the Mock brothers were charged was breaking into a chicken coop and stealing two turkeys. They, with others, it is suspected, have stolen over \$2,000 worth of poultry this winter, and it is said some of it was disposed of in Lima.

Goes into the Combine.

Springfield, Mass., Feb. 3.—The Watson Car company, the largest car building concern in New England, has been taken into the big car building combine, which will control a large part of the car building business in the United States. The promotion of the combine has been in the hands of W. T. VanBruit, who is allied with D. H. Harriman, the New York railroad magnate.

Postmaster for Forty Years.

Lacrosse, Wis., Feb. 3.—Thomas Minshall, postmaster at LaCrosse, Minn., for 40 years, 1859 to 1899, is dead at the age of 82 years. He held office the longest of any postmaster in the United States when consecutive years are considered. At the St. Louis and Chicago expositions he received the honor of being the oldest postmaster in the country.

Panama Fire.

Washington, Feb. 3.—Further details of the fire at Panama received at the offices of the isthmian canal commission show the loss was \$350,000, with but \$70,000 insurance. Four hundred persons were rendered homeless, including about 25 American canal employees.

Seven Victims.

Victoria, B. C., Feb. 3.—The tug Lorne left Bamfield with the bodies of seven Valencia wreck victims. One is supposed to be the body of Miss Van Wych of San Francisco. Two are identified as J. B. Graham, of San Francisco, and Fred E. Rickson of St. Paul.

Was Asphyxiated.

Columbus, O., Feb. 3.—Joshua Gibson, aged 75, who sold newspapers in the streets here for years, was asphyxiated in his lodgings.

BELIEVES THE COMMISSIONERS CAN DO THE INFIRMARY DIRECTORS' WORK.

Hon. L. G. Neely, representative in the legislature from Auglaize county, is certainly in touch with the sentiment of his constituents on the question of abolishing the office of infirmity director. He is of the opinion that the office is more ornamental than useful, and he will undoubtedly support the measure which contemplates the doing away with this needless expense to the people. Mr. Neely's attitude on this question was revealed in an unexpected way, so it appears, and as Lem never speaks in riddles, there is no uncertainty about in his sentiments. It came about in this way:

"One day last week, while the state association of infirmity directors was in session at Columbus, a card was sent up to Representative Neely. He responded and found his distinguished constituent Fred Rehn infirmity director, awaiting him. Fred was playing a new role, that of lobbyist, and urged Mr. Neely to vote for the Bassett salary bill under the provisions of which the infirmity directors of Auglaize county would receive the handsome salary of \$1,200 a year. By way of special pleading, Rehn stated he had worked for Neely's election last fall and thought he ought to reciprocate by supporting the measure that would transfer several hundred dollars yearly from the public treasury into his pockets. He was stunned by Mr. Neely's reply.

"I will tell you frankly, might now," said Mr. Neely, "that I will not vote for the bill but will oppose it as vigorously as I know how. Furthermore, there will be a bill introduced abolishing the board entirely, transferring the duties to the county commissioners, and I promise you it will receive my vote and most earnest support."

That kind of talk comes straight from the shoulder and is the kind the people like to hear. There is no heating around the bush by Representative Neely. He is the right man in the right place at the right time.

H. A. REEVE TO ASSOCIATE HIMSELF WITH PROBATE JUDGE A. D. MILLER.

On Friday of the coming week Probate Judge A. D. Miller will relinquish his official position at the court house, being succeeded by J. N. Hutchinson, who was elected to that position last fall. Mr. Miller has decided to practice law in Allen county and has formed a partnership with H. A. Reeve, formerly a Delphos, but for the last year or two with offices in Lima and the new firm will hang out their shingle at the windows of rooms 57 Metropolitan Block.

Snap to Spring Trade.

New York, Feb. 3.—Bradstreet says: There is more snap to spring trade this week, jobbers and manufacturers, particularly at the west and south, noting more inquiry for dry goods, clothing, shoes and similar lines. Favored by the steady weather these trades display a desire to open the season earlier than usual. Shipments on spring accounts are being called for early. Retail trade and to a certain extent collections are of course affected by the same weather conditions, but forced sales are moving some goods and there is even a tendency on the part of retailers to become reconciled to the situation and not to let the undeniably disappointing winter trade interfere with spring demands. Industry is favored by the openness of the weather, but anthracite coal demand is slack and bituminous is lower, despite talk of a strike of western miners who have been refused higher wages.

Agitation Against Foreigners.

Peking, Feb. 3.—The foreign newspapers published at Shanghai, Hong Kong and Tientsin, continue to dwell with apprehension upon anti-foreign trouble, but Peking gives no sign of a hostile feeling towards foreigners. The dowager empress received the diplomatic body, the Chinese New Year At the audience she displayed her customary cordiality. The relations between the court and the legations are in no way changed. The open agitation against foreigners is confined to central and southern China, and it is anticipated that troubles, if they occur, will be limited to those sections, as "boxerism" was limited to the north. Those whose predictions would carry greatest weight, however, are most reluctant to express opinions.

FIFTY HURT.

One Church in Paris the Scene of a Desperate Conflict.

Paris, Feb. 3.—As a result of the rioting, though the inventory was taken is but one church, that of St. Pierre Groscaillon, over 50 persons were seriously injured and a further considerable number slightly hurt. The latter include a number of police and firemen who were almost blinded with cayenne pepper. Fifty arrests were made. The storming of the building was greatly protracted owing to the use of the "defenders" of red pepper. After repeated efforts, the police and firemen succeeded in entering the church by employing chairs as shields.

Chinese Commission Dined.

New York, Feb. 3.—Under the auspices of the various missionary boards which have their headquarters in New York, a notable dinner was tendered to the visiting high commissioners of the emperor of China, Viceroy Tuan Fong and Tai Hung Chi, assistant secretary of the Imperial Chinese treasury, at the Waldorf-Astoria hotel. John W. Foster, former secretary of state, presided. Eight hundred men and women were seated about the tables. Viceroy Fong in his address, declared he would always protect life and property under his care to the best of his ability, irrespective of race, color, religion or social standing.

Lands for Peasants.

St. Petersburg, Feb. 3.—The ministerial proposition for the solution of the agrarian question, a successful settlement of which is generally regarded as the crux of Count Witte's difficult task, is now nearing completion and will be taken up for consideration by the council of the empire on February 8. It involves the appropriation of \$15,000,000 for the compensation for private owners of land, expropriated for distribution to the peasants. The operation will be accomplished through the peasant bank, which will purchase the lands and sell them to the peasantry on the installment system.

Demands of Farmers.

Upper Sandusky, O., Feb. 3.—The farmers of Wyandot county, declaring that drivers of automobiles operate them with criminal recklessness, demand a state law requiring numbers and high license for all machines. The Brownlow good roads law, designed to give national aid to the matter of road building, is endorsed, as also is the proposition to establish a parcels post.

Slim Attendance.

Washington, Feb. 3.—Only 15 representatives attended the caucus called to consider the national quarantine bill framed by a special committee appointed by a caucus of southern members a week ago. On account of the small representation the caucus took no action and decided to issue a call for another meeting Tuesday night in the hope of getting a larger attendance.

GAINED 70 POUNDS

MR. HENRY SABIN.

Mr. Henry Sabin, who lost 70 pounds, and was given up to die by friends and relatives, restored to former weight and complete health in a few months by the regular use of Duffy's Pure Malt Whiskey.

"I was so thin you could count my teeth through the skin; now I weigh 210 pounds and my hair has all come back again and I am in complete health, thanks to Duffy's."

"I have been taking Duffy's Pure Malt Whiskey for five years. I take about half a wine glass full twice and sometimes three times a day. It has brought me from an old, decrepit, worn-out man, given up to die by friends and relatives, to perfect health. I had said good-by to all my friends, and was so thin that you could count my teeth through my skin. I only weighed 140 pounds, 70 less than usual. One day a druggist, an old friend of mine, brought me a bottle of Duffy's. I began to take the medicine regularly and my recovery was marvelous. I began to sleep soundly and to retain nourishment. In two weeks I could walk about the room and in a month I could go downtown. My hair has all come back, just as it used to be, and I weigh 210 pounds, my former weight. Today I am in complete health and words cannot express my appreciation for Duffy's."—HENRY SABIN, 385 East 10th Ave., Jamaica, N. Y. April 16, 1905.

Duffy's Pure Malt Whiskey

is the only positive cure and preventive of pneumonia, consumption, grip, bronchitis, coughs, colds, diseases of the throat and lungs, malaria, fever, stomach and bowel troubles, and all wasting, run-down, diseased conditions of the body. Over 4,000 centenarians owe their long life and continued health, strength, activity and usefulness to the grand medicine, which has made the matchless record of over 4,000 cures in fifty years. It is invaluable for overworked men, tired, nervous, delicate women and sickly children. Duffy's makes the old young and the young strong. It is absolutely pure, contains no fusel oil, and is the only whiskey recognized by the Government as a medicine.

CAUTION.—When buying Duffy's from your druggist or grocer insist on receiving the genuine. You'll recognize the "Old Chemist" on the label. Do not accept harmful substitutes sold by unscrupulous dealers for profit only. Duffy's is the only safe, helpful, pure malt whiskey. Price, \$1.00. If your dealer can't supply you, write directly to Duffy Malt Whiskey Co., Rochester, N. Y.

THROUGH SERVICE IS ARRANGED

INTERURBAN PASSENGER AND FREIGHT AGENTS MEET IN TOLEDO TO AGREE ON PLAN—TOLEDO TO DAYTON VIA LIMA IN FIVE HOURS.

Toledo, O., Feb. 3.—Through interurban passenger and freight service between Toledo and Dayton and other important electric road centers in Ohio, Indiana and Michigan will be inaugurated within a short time.

A preliminary meeting of passenger and freight agents of five interurban roads in Ohio and Michigan was held in this city yesterday.

The through service between Toledo and Dayton will be via the Toledo, Bowling Green & Findlay road, Toledo to Findlay, where the Western Ohio will be used from Findlay to Lima and south, thence over the Dayton and Troy lines into Dayton. A schedule of five and one-half hours will be maintained between Toledo and Dayton.

Through service to Indiana points will be maintained at Dayton and at Lima. At the latter point direct connections with Ft. Wayne can be made. It is also planned to extend this through service later to Detroit via the Detroit, Monroe & Toledo.

The electric roads represented at today's conference were Western Ohio by C. C. Collins and R. H. Carpenter of Lima; Toledo, Bowling Green & Southern, W. L. Smith, of Bowling Green; Detroit, Monroe & Toledo, R. L. De Lisle, Toledo, and W. B. Tarkington; Dayton & Troy, C. M. Patton; Dayton, Toledo, Findlay & Fostoria, F. W. Adams; Fostoria.

With regard to excursion rates the roads will be a little more conservative than heretofore. Excursion rates will be made to create business, as heretofore.

"Delegates to state and national conventions will cease to get rates. That is business which moves any how."

CARRY MAIL ON ALL TRAINS.

Postmaster General Cortelyou Reported to be so Planning.

Every railroad train in the country will be a mail train in a short time. Postmaster General Cortelyou has announced that baggage men on trains not carrying mail may carry packages of morning papers, to any destination on the line, and that such papers will be considered regular mail matter. This will enable many people to receive their dailies in time for breakfast, whereas heretofore they were delayed several hours waiting for the regular mail trains. But the greatest benefit will probably be that sustained by the railroads. The government never allows strikes to interfere with the United States mail or any other train carrying it, and when it is remembered that each train in the country will practically be a mail train the far reaching effect of the order is readily apparent.

J. A. Gordon, general superintendent of the Cincinnati, Hamilton and Dayton line, was married night before last to Pauline, younger daughter of H. S. Willard, the wealthy iron manufacturer of Wellston, O. A special train was run from Dayton to Cincinnati, and Mr. Gordon's private car was turned over to the Queen & Crescent yesterday for a southern trip.

For any pain from top to toe, from any cause, apply Dr. Thomas' Electric Oil. Pain can't stay where it is used.

WHO CAN ANSWER THIS QUESTION?

The following question was sent in this morning by one of the subscribers to the DAILY NEWS. The interrogation is asked by a woman. Can you answer it?

Will the canine family be able to supply the women of our next generation who prefer dogs to children?

Itching, bleeding, protruding or blind piles yield to Doan's Ointment. Chronic cases soon relieved. Finally cured. Druggists all sell it.

ST. VALENTINE SUPPER.

Here is an appropriate menu for a Valentine supper:

Grape Fruit with Candy Hearts.

Radishes. Skipped Nuts.

Sweetbread Pastry.

Heart-shaped Biscuits with Honey Nut and Grape Salad.

Heart-shaped Cakes.

Ice Cream. Coffee.

Bonbons with Love Messages.

The grape fruit should be cut in half crosswise. With a sharp knife cut out all the white membrane that separates the lobes. This is bitter.

Dust thickly with granulated sugar. Set to cool. Just before serving, strew over the top of each plate a half dozen red candy hearts.

Let the fruit be placed before the guests are seated. Remove plates after the fruit has been eaten.

Set on the table in small dishes both the radishes and the salted nuts.

Serve patties in regular patty shells with heart-shaped rim on plates. The heart-shaped biscuit can be made by cutting with a heart-shaped tin cutter.

Serve the salad over a heart-shaped lettuce leaf, shaping the salad to the shape of the leaf. The salad looks pretty served inside a rim of bits of chopped beets, laid in heart design on the lettuce.

The heart-shaped cakes are baked with red rims and each one is pierced with a tiny mild arrow.

Serve the love bonbons with last course and end the meal with toasts to Cupid.

The Ende will celebrate guest day on Tuesday afternoon at the home of Miss Badeau, each member having the privilege of bringing one guest. An especially interesting program has been arranged.

The Avalon Club will be entertained by Mrs. Bradrick on Tuesday evening.

HESPER

BY HAMLIN GARLAND

To Be Printed Serially in this Paper Beginning in Our Next Issue

We have secured for our columns Hesper, the best story of one of the foremost writers of present day fiction. You won't find Hesper hard reading. The Detroit Free Press says: "It stirs the blood, for there are dramatic moments presided over by desperate men."

WHOLE SOME

The Pittsburgh Post says: "We are fond of this writer and our justification comes from the wholesomeness of his work. His novels are all sound."

A LOVE STORY

The Tacoma (Wash.) News says: "A wholesome story is Hesper. It is the tale of a strong man's wooing." Des Moines News; "A miner's strike high up on the mountain peak amid the wildest scenery makes a thrilling background for the wooing of Ann—a fascinating love episode."

PICTURE OF THE WEST

Los Angeles Times: "A picture that is clear in all its lines and sets before us as no current fiction does the life of the camp followers of the great mining centers."

PROGRAM OF WEST CAIRO FARMERS' INSTITUTE.

Monroe township has long been noted for its excellent farms and progressive farmers. No better soil is found in the state than that which is found in portions of that section of the country. The natural favored conditions of that locality were taken advantage of by the intelligent tillers of the soil until today their farms are in a high state of cultivation and they are enjoying the comforts and luxuries of a modern American home.

The farmers of Monroe township have always taken an active part in the farmers' institutes held in the neighboring villages, and this year they concluded to have an institute at West Cairo. John L. Shawyer, of Bellefontaine, and Frank Blackford, of Eldorado, two noted state speakers, with well selected local talent, will insure the complete success of the meetings. One of the special attractions will be the music, which will be furnished by the Gomer Quartette.

AMUSEMENTS

AMUSEMENTS.

Tonight—"A Hot Old Time."
Wednesday—"A Son of Rest."
Saturday, Matinee and night—"Human Hearts."

"A HOT OLD TIME."

It goes without saying that a crowded house will greet the return of the ever-welcome musical pot-pourri, "A Hot Old Time" at the Faurot Opera House next Saturday afternoon and evening. "A Hot Old Time" is destined to enjoy many seasons of popularity, being as it is, one of the best musical comedies ever seen here. The entire production this year is new and bright, and the music is of the most popular order, while the costumes worn by the principals and chorus never fail to bring murmurs of admiration from those present nightly. The company numbers 29 people and is headed by clever William McRobie, who plays the part of "Larry Mooner." Mr. McRobie is a comedian who knows how to make his efforts produce good results. Some of the others who contribute their share to the fun-making are Harry B. Mack, T. F. O'Malley, Thos. J. McMahon, Chas. L. Gill, Wm. Moulton, Frank Korb, Collins and LaRelle, Josie Williams, Burdock Sisters, Lillian West, Irene Carlisle, and May Templeton.

The advance sale of seats for this engagement is one of the largest of the present season. Orders from out of town for choice seats are arriving by every mail, and all indications point to a crowded house.

Messrs. Broadhurst and Currie the well-known production managers are again delighting the amusement loving public with "A Son of Rest," the real landslide of laughs. This being the third season, special attention was given it and in consequence many new features were added. Scenically it is better equipped than ever. The costumes are entirely new, some of the gowns worn by the ladies being of the latest models from the Parisian plates. The electrical effects are on a grander scale than ever, and something new in the way of color display will be shown. Fifty people are carried, comedians, singers and dancers and the famous beauty chorus of thirty. Special attention was given to the musical numbers and the very latest Broadway hits will be heard. The cast is the best this comedy has ever had, containing a list of names well and favorably known as favorites of the best callers. Mr. Billy Swore will be the "Hunting Grub," he of rags and patches. Mr. Swore is best remembered as the scare-crow in the "Wizard of Oz." He is a comedian who does not beg his laughs by slapstick methods, but gives an artistic representation of this oft-abused character, the tramp, making him funny at all times but never coarse. Besides the parodies that he will sing his wonderful eccentric dancing will be introduced and we feel safe in saying no better dancer is to be seen in musical comedy than Mr. Swore. Miss May Florence Linden, the leading lady, possesses an exceptionally pleasing soprano voice, and gowns worn by her are really dreams of the dressmaker's art. Mr. Chas. Udell, in addition to being the company's stage manager, will again be seen in his original part of "Tini-o-thy," the village "Poo-bah." Mr. Udell stands alone in the artistic representation of the "Rube" character and in his specialty with the famous midget comedian, Mr. Mur-

phy, who is the star of the night, is one of the best of the present season. The performance of "A Son of Rest" will be seen in all of the "High Price" theatres. This is Miss Linden's second season with this company. She has a standing stage presence and her rendition of the "Tini-o-thy" and "Song" is a musical treat. Mr.

A SON OF REST.

Percy Walling, the well-known baritone who was always a feature with the Hoyt farces, will look after the juvenile character of "Frank," his stela song in the first act in which he is assisted by the male chorus and "Roaming in the Gloaming," his song in the second act in which the strength of the entire company is required are from the pen of the eminent musical genius Mr.

HUMAN HEARTS.

Max Witt. The remaining characters are in competent hands and with the beauty chorus, a smooth performance is always given. "A Son of Rest" comes to Faurot Opera House next Wednesday, Feb. 7.

"Human Hearts."

On next Saturday matinee and night, the stage of the Faurot Opera House will be devoted to the presentation of the popular and highly successful play "Human Hearts," with a company of superior excellence and strength. The author of the play is an actor of wide experience and fully understands the art of playmaking from the standpoint of both the spectator and the actor. His effects are produced quickly, but none the less does he hold patent away over the passions of his auditors.

The play is almost too well known to require more than a passing word upon the plot. The main treat of the story centres around Tom Logan, who is unjustly accused of murder, and sentenced to life imprisonment. His wife Jeannette, who is a proud ambitious woman, runs away with an old lover, and goes to New York. Even in a woman degraded as she is, the instinct of motherhood prompts her to return to the old home to try to gain possession of her child Grace. She is frustrated in her design, and new

scenes have been submitted to the Governor of the State he pardons, and sets her free. Jeannette dies, and Tom is arrested for the murder of Tom's father, and Tom escapes with his family, and the clouds of adversity are dispelled by the sweet sunshine of a true woman's love.

"Dora Thorne."

One of the most important and successful of the current season in the dramatic field of popular priced amusements is the dramatization of "Dora Thorne" Bertha M. Clay's novel of international fame. "Dora Thorne" is one of the most successful novels of its kind that was ever written. Time only increases its value, and enhances its popularity, proving more than all else its useful work in the literary world. A story full of humor and pathos, well defined characters, and sincere heart interest. "Dora Thorne" is indeed full of material to make one of the most successful of the many dramatized novels.

Messrs. Rowland and Clifford, the well-known and popular amusement caterers, will place this play before the public with a remarkable cast of players and beautiful scenic equipment; every care and attention will be given to make this production praiseworthy in all respects. All who read the novel—and those who have not—cannot help but feel refreshed and benefitted by this wholesome play.

"Dora Thorne" will be seen at Faurot Opera House on Monday, Feb. 12.

Hennery Was Fly Too.

Frank Deshon, the diminutive comedian in "The Office Boy" and a party of friends were spending their vacation last summer at Mr. Des-

hon's camp at Centerville, Cape Cod, Mass. They took up sailing with all the enthusiasm of the amateur, and had become sufficiently expert to trust themselves upon the small sloop without a skipper to guide them. In this happy state they drifted up the small river that empties into the ocean near their camp under a gentle breeze. Deshon caught sight of a bucolic-looking native watching them with interest. "Howdy do, Hennery?" Deshon sang out. "Feeling purty well?" "Middlin' good," was the reply. "Crops good I hope," pursued Deshon. "How are turkeys?" "Wal, mister," was the discouraging reply. "they're better'n they would be if we planted 'em wrong side up, ez you've got your jib set."

One of the brightest and most successful of the William A. Brady productions, "Girls Will Be Girls," will appear soon at Faurot Opera House. "Girls Will Be Girls" is a musical farce with a plot. An excellent company is headed by Al Leech, whose eccentricities are well known, and he is reinforced by the Three Rosebuds, Aileen Plavon, Maud Gray, Lillian Manola. The production is an elaborate one and is staged with the usual munificence of the Brady plays. The score, written by Mr. Joseph Hart, is replete

with musical bits that will be whistled on the streets and many of the songs and dances rendered by a big chorus of pretty girls are distinctly novelties. The "Flatiron Dance" is one of the decidedly new things that "Girls Will Be Girls" has to offer and the ballet ends with a Wind Effect characteristic of the Broadway and 23rd Street Corner. Al Leech, of course dances inimitably and this season he is climbing a longer and funnier flight of stairs than he has ever attempted before. One of the Three Rosebuds, all of whom sing well and do much to disprove that stage maxim to the effect that it is impossible for a woman to be funny, Miss Maude Gray is one of Mr. Brady's discoveries. She is possessed of a truly remarkable soprano voice, which she uses with great artistic effect and which is exactly suited to the musical numbers allotted to Miss Gray in the "Girls Will Be Girls" score.

The possibilities for fun in a play which places Al Leech at the head of fifty-five pretty girls as Professor of the Rural Academy are apparent when one remembers the fun that he produced when his class only numbered the Three Rosebuds. The supporting company is composed of capable actors and "Girls Will Be Girls" is a well-written musical farce, produced by a well-balanced company.

his new play, "The German Gipsy." The play tells an interesting story, and its situations are well conceived and finely executed. Manager Sidney R. Ellis has staged "The German Gipsy" elaborately, carrying the full complement of scenery, which includes some very pretty sets, and these make a background for the beautiful wardrobe worn by the members of the company. The company supporting Mr. Wilson includes many names well and favorably known. Mr. Wilson's songs are entirely new and will be heard for the first time. They are "Under the Harvest Moon," "The Love Trust," "No Love Like Thine," "The Girl For Me," "Gretchen," "My German Rose" and "Katie Krause." Mr. Wilson will also sing at each performance everybody's favorite, "The Winding Of The Yarn."

SHOULD HE HAVE DODGED?

"You are accused of breaking a store window."
"It was an accident, j-judge."
"How so?"
"A to-man threw a b-brick at me and I d-dodged and the b-brick b-broke the w-window."

Long, who were at home at the time Sargeant Bacome called at the Long residence testified that when Sargeant Bacome called he requested a private conversation—as he didn't want the children to hear him; that he went into a private room with their mother, remaining there five or six minutes, when they came out Mrs. Long appeared to be very angry. They further testified that as Sargeant Bacome was leaving the house he requested Mrs. Long to not say anything about his being there as he was in his full uniform.

Mrs. Long testified that Sargeant Bacome came to the house and knocked and that she opened the door and invited him in. That he requested that their conversation be private and she ushered him into an adjoining room. Once within she states that Bacome laid his hand on her arm and asked her what was the matter with having a little time. She told him she was not that kind of a woman and the interview ended.

Sargeant Bacome was placed on the stand. Said he and Long had not spoken to each other since the trouble several days ago. That Long previous to that trouble had never made any accusations with reference to any member of his family. Bacome admitted visiting the Long residence the first week in October, 1904. He rode all the day to the residence, which is on Lakewood avenue, on his wheel. Went out to tell Long there was a chance for him to get on the police force. He stepped onto the porch, knocked and some woman came to the door and it proved to be Mrs. Long, he having never met her before this time. She invited him in. The two children were in the room he entered and when she invited him to a seat he sat in a rocker in an adjoining room, but the door was open. Mrs. Bacome said he conversed with Mrs. Long for a few minutes, but was unable to state what they talked about. After the preliminary conversation he asked Mrs. Long where her husband was, and explained to her that there was a chance for him on the police force. Stated that he was in the house about ten minutes and that when he left Mrs. Long said good-bye. Said he made no propositions or proposals to her, and never laid his hand on her. Didn't ask to talk to her privately and didn't ask her if they couldn't have a little time. In fact Mr. Bacome contradicted all the testimony of Mrs. Long and her two children.

WHO KILLED UHL'S FATHER?

SINCE YOUTH OF MARIETTA HAS BEEN CLEARED OF GUILT MYSTERY GROWS DEEPER.

Marietta, Feb. 3.—The jury last night acquitted Edgar Uhl, Jr., of the charge of murdering his father, but the mystery of the latter's death is as deep as on the day he was found with his head blown off. The jury finding Uhl not guilty has, in effect, laid the blame on his dead mother.

The defense in its plea for acquittal for Eddie introduced some evidence to show that his mother had committed the crime. But on her death bed when she knew that a life would be in vain, she declared: "Neither I nor Eddie is guilty."

It has been argued that at the moment she was passing to higher judgment, if she was guilty, she would confess her guilt in order to clear her son. The necessity of such a statement was impressed upon her by those who stood at the bedside at the last moment.

Who did kill Edgar Uhl, sr? In Marietta there is a story that Uhl met death at the hand of another, but by accident. It is said he attempted to shoot his wife. One of the members of the family not Eddie rushed to her aid. There was a struggle for the gun. It was discharged and Uhl fell dead.

It is said that his story will be told by the living principal in it at a time when death which is said not to be far off, will make further concealment useless. Standing on the sidewalk at the Uhl house its branches almost touching the windows of the room in which Uhl was murdered is a large tree.

It would be possible for any one intent on murder to climb that tree and from it fire into the room. That is another theory that has been advanced in solution of the mystery. Edgar Uhl, the acquitted, was asleep in his cell when told the jury was ready to return a verdict. He dressed leisurely.

When the crowd showed and women cried he did not show a trace of emotion. He walked out into the street bareheaded and in the light coat he wore when arrested last June and went to the home of a friend.

MRS. YERKES IS MARRIED

WIFE OF LATE TRACTION MAGNATE ADMITS RUMOR OF WEDDING.

SHE WANTED SECRET KEPT—WILSON MIZNER, THE NEW HUSBAND, MOVED INTO HIS NEW YORK HOME.

New York, Feb. 3.—All doubts regarding the marriage of Mrs. Chas. T. Yerkes, widow of the traction millionaire, to Wilson Mizner, the young Californian, were removed today.

Mrs. Mizner admitted the marriage had taken place Tuesday evening. The only reason for the misapprehension on the subject, it appears, was the desire of Mrs. Mizner to keep the fact of the marriage secret ten days or so.

Wilson Mizner, the young Californian who married Mrs. Yerkes, arrived at the Yerkes mansion on fifth avenue at 11:15 o'clock this morning. He came in an electric cab, and was accompanied by a valet. His possessions consisted of two suit cases and a hat box.

When Mizner alighted from the cab one of a number of newspaper men who were awaiting his arrival, remarked to him: "You are moving in."

"Yes," replied Mizner, "I am moving in. This is my home now and I am moving into it."

Asked if he had any statement to make regarding the denials that he had not been married to Mrs. Yerkes he replied that he had nothing to say now, but that he might issue a statement later in the day.

Mizner then went to the door of the Yerkes mansion, which was immediately opened, and he entered.
